CAMPBELL REGISTERS RECORD-BREAKING VOTE

Press Endorsed Local Candidates Poll Strong Votes

Campbell Press endorsed candidates Paul W. Crawford, Albert B. Smith, and David C. Kirby, while not receiving the high votes in the countywide poll swept the voting in local Campbell, San Tomas and Moreland precincts.

Paul W. Crawford, incumbent justice of the Saratoga Justice Court, running for election to the judgeship of the newly-formed Campbell-Saratoga Los Gatos justice court captured every single precinct in the Campbell area and polled 4366 county-wide as against 4405 for Lyman Feathers.

Local Fifth District Supervisor candidate Albert B. Smith, agriculture instructor at Campbell Union High School also captured every precinct in the Campbell area with an unofficial county-wide vote of 13,440. Walter S. Gaspar, Palo Alto, received 15,710.

In the Superior Court Judgeship race, David C. Kirby received an unofficial county tally of 29,628 and made a strong showing in Campbell, Moreland and San Tomas precincts.

Chamber Officers Installed At Dinner Meeting

Approximately 75 persons attended the Campbell Chamber of Commerce installation dinner last week at Campbell Union High school cafeteria to congratulate incoming officers Mario Saia, Joseph Agostinho, Arthur Mayo, David Ribble and Dr. Robert Jasmine.

Laurance J. Hill was in charge of installation proceedings.

Invited guests were Campbell City Councilmen, Mayor Richard W. Morton, Joseph V. Gomes, James B. Arends, Jr., and Joseph M. Dahl. Dr. J. Frederic Snyder was detained at a medical meeting and could not be present.

Morton spoke on the necessity for cooperation between city officials and the Chamber of Commerce on problems of mutual interest in connection with the development of future city projects.

Joaquin Payne read a report on last year's chamber activities.

The new officers took over duties May 28 and were elected to serve in the following posts: Mario Saia, president; Joe Agostinho, vice-president; Arthur Mayo, treasurer; Dave Ribble and Dr. Robert Jasmine have been elected directors for the coming year.

MORELAND SCHOOL DISTRICT TO ASK SIXTY CENT TAX RATE INCREASE SOON

Moreland School District Board of trustees will ask for a sixty-cent tax rate increase June 12 to cover the cost of new classrooms and more teachers.

The issue to come before voters seeks to up the rate from the present 90 cents a hundred dollars assessed valuation to \$1.50, citing as its main reason the increased enrollment coupled with decreased California State aid.

The present tax rate was set in 1933, according to officials. Since that time, officials say, California State aid has been reduced from 53 percent of the total school income in 1935 to 43 percent in 1950. At the same time, trustees point out the U. S. dollar has dropped to two-thirds original purchasing power.

Moreland school district puts forth these facts voters should take into consideration in voting for or against the issue:

1. The district has grown from 76 children to 800 this fall.
2. Rooms have been added and a new school built.
3. State aid has been reduced.
4. Moreland teachers average a monthly take home pay of \$188.88.
5. Since 1939 the average salary for all types of employees in the U. S. has gone up 167% while teachers' salaries have gone up 81.4%.

AT WORK. Campbell artist, Frank A. Cutting, puts finishing touches on one of his paintings recently exhibited in month-long one-man exhibition at Santa Cruz Art Gallery.

CITY HIRES AUDITOR; APPOINTS JACK SCOTT FIRE CHIEF; HEARS PROTESTS OVER USE PERMITS

City Council Monday night adopted a resolution appointing William Enochs auditor for the city and appointed Volunteer Fire Chief Jack Scott Campbell fire chief.

Enochs will be employed on a contract basis, salary to be determined according to the time required to set up an auditing system with the amount paid not to exceed \$500.

ANNUAL PARTY FOR TRUSTEES

The annual teachers and trustees party sponsored by the Campbell Teachers' Association was given last week at Villa Felice attended by approximately 130 persons.

The group gathered for a fine meal and social evening. Entertainment was provided by teachers of various schools who arranged a program of skits, songs, dances and readings.

Trustees present included Mr. and Mrs. Edwin C. Van deMark, Mr. and Mrs. L. E. Means, Mr. and Mrs. Ed A. Meril, Jr. Also present was district superintendent Wm. C. Henley and Mrs. Henley.

It has been estimated the job will take about a month to complete and will include setting up a bookkeeping system and also forms for claims and warrants.

Enochs was selected last Thursday at a meeting of the whole comprised of Mayor Richard W. Morton, Councilmen J. B. Arends Jr., and Joseph M. Dahl. Enochs, employed by San Jose Hardware company, was formerly an auditor with the State Board of Equalization, and had completed audits for cities in the surrounding area.

Jack Scott was appointed Fire Chief, salary to be set on an average of expenses incurred over a period of six months.

Public hearings on use permits for Alexander Bache, 147 N. 17th Street, San Jose, and Dr. Glen L. Stoops occupied a good portion of the evening.

A use permit for commercial burning on the property of Lena Campisi, 291 North San Jose-Los Gatos Road for Alexander Bache, 147 N. 17th Street, San Jose, was deferred pending advisement from the Air Pollution Department of the county health department, an opinion from Fire Chief Jack Scott, and a legal description of the boundaries of the property.

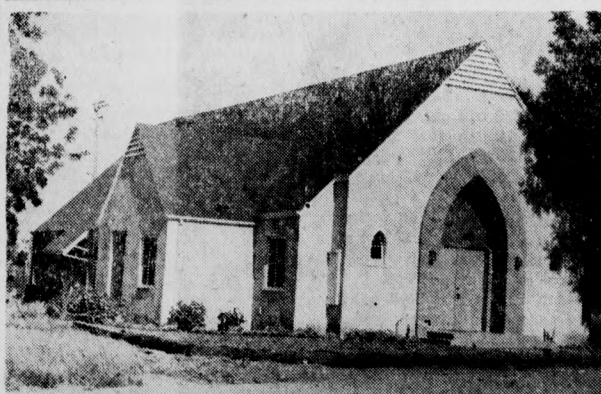

Application of Dr. Glen L. Stoop to operate a combined home and chiropractic office at 334 North Winchester Road was deferred until disposition of the Carbone-Parlatto hearing scheduled for next meeting, which deals with a commercial use permit on Winchester Avenue.

Action followed suggestion of Councilman Joseph V. Gomes that the council should consider future expansion of the city and whether the council should permit or limit commercialization of certain streets. Gomes was concerned with the gradual commercial development of N. Winchester Road and thought the council should keep in mind areas where commercial permits should be granted, and those

PROFESSIONAL WOMEN HEAR LECTURE, SEE FILM ON GLASS

Guest speakers at the last dinner meeting of the Campbell Business and Professional Women's Club were Mr. John Sabo, assistant manager of technical sales for the eleven western states for Owens-Corning Fiberglass Co., and Mr. Jim Braddock of the same company. Mrs. Lucille Barnes was chairman for the evening, introducing the speakers.

Mr. Sabo outlined the history of glass making, an art dating back to the time of the Phoenicians. He mentioned that it was not until the 1930's that research was begun to develop further uses of glass. Now some 600 filament diameters are manufactured to create hundreds of varying products of glass. The Santa Clara Fiberglass Co. makes only fibers and is one of nine Corning Glass Plants in the U. S. and Canada. A research staff of over 500 is constantly exploring possible developments in the Newark, Ohio, plant alone. The decorative applications of glass are fascinating and most durable. The development of silicon resins has made for high temperature resistance to go along with the good humidity and electrical properties that have made glass so vital in many industries in the last few years. In fact, it is the vital application of glass to the war effort in secret methods that make tours of the Santa Clara plant impossible at the present time.

Mr. Braddock gave graphic presentation of the actual processes through colored movies. Both he and Mr. Sabo were most gracious in answering questions and demonstrating the many glass products on display at the meeting.

Also on the program was a short talk coupled with posters on the need for additional schools in the Campbell area. The pre-school population far exceeds the number of children now attending school. While the Campbell district is at present constructing two new schools, classroom space will still be inadequate upon their completion. A bond issue will be voted on in the near future to help meet this situation.

Campbell BPWC will hold its regular business meeting June 12, at which complete reports on the State Convention held in Sacramento will be made by Thelma Solari, Alma Fanning, and Gwen Steindorf.

SPIRITUAL UNDERSTANDING IS KEY TO WORLD DESTINY, SAY SCIENTISTS

Spiritual understanding alone can pierce today's corruption in government and world confusion and lead mankind to lasting safety and security, The Christian Science Board of Directors said today.

About 7,500 Christian Scientists from throughout the world heard the Directors' special message at the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.

The Directors said that human ingenuity alone will never solve mankind's deepest problems. But they added that the means for right adjustment are spiritual and are immediately available.

"Not numbers, nor human might but Truth—spiritual understanding—is the power that will mold the world's destiny," they declared.

Named president of The Mother Church for the coming year was Lt. Col. Robert Ellis Key of London, England, associate editor of the Christian Science religious periodicals. He has been active in the religion for more than 40 years, including service as practitioner, lecturer and authorized teacher.

"The keynote of this century is not chaos, but Christ," Colonel Key told the huge crowd. "War and destruction have been associated with the first half of the twentieth century, but progress and spiritualization will mark the succeeding years."

"The old materialism must be replaced by a spiritual concept of creation," he added.

Mrs. Lora C. Rathvon, retiring president, said there is "growing recognition that spiritual enlightenment, and spiritual enlightenment alone, will blot out the materialism which is the source of all confusion and of mankind's multiplied problems."

Farmers Warned About Child Labor Laws

With the growing season under way, farmers whose products are shipped out of the state, either directly or indirectly, were cautioned today by C. O. Atchinson, Field Office Supervisor in Northern California for the U.S. Department of Labor's Wage and Hour and Public Contract's Divisions, about the child labor provision of the Fair Labor Standards Act.

The act, better known as the Federal Wage and Hour Law, makes it illegal to employ children under 16 years old in agriculture during the hours when school is in session in the district where the child resides.

The law, he pointed out, does not apply to children working on the home farm. Nor does it prohibit, he added, employment of children under 16 in agriculture before or after school hours on any school day, or at any time on school holidays, or during school vacations.

"The farmer is responsible for finding out the correct age of each young worker," he said, "but the farmer is protected from unintentional violation of the child labor provisions if he has a certificate of age acceptable to the U. S. Department of Labor which shows the young worker to be at least 16 years old."

"The farmer is also required by the law to maintain certain records for every minor in his employ who is under 19 years old. These records include the minor's name in full, his home address, date of birth and occupation in which he is employed. Such records must be maintained for three years."

"Severe penalties can be imposed, upon conviction for willful violations of the child labor provisions. For a first conviction, a Federal court may impose a fine of not more than \$10,000. A fine of not more than \$10,000 or imprisonment for six months, or both, may be imposed for a second conviction."

"Farmers who may be in doubt about the application of the child labor provisions to their operations should make inquiry at the Wage-Hour office. In northern California, the Wage-Hour offices are located at 528 Flood Building, 870 Market Street, San Francisco; 331 Federal Office Building, Ninth and I Street Sacramento, and 324 Postoffice Building, Fresno."

Vesser son of Mr. and Mrs. William Vesser, 17 El Caminito, Campbell, is a junior in engineering.

Church Of Christ Names Londoner New President

Lt.-Col. Robert Ellis Key of London, England, today was named president of The Mother Church The First Church of Christ, Scientist, in Boston at its annual meeting attended by Christian Scientists from all over the world.

Colonel Key is associate editor of the Christian Science religious periodicals and formerly served as a lecturer. He is a Christian Science practitioner and has been an authorized teacher of the religion since 1937. He first became active in Christian Science more than 40 years ago.

In World War I he was decorated by the British Army with the Order of the British Empire, and granted the permanent rank of Lieutenant Colonel. He left the Army in 1920 and in 1923 he began to devote all his time to Christian Science work.

Before and during World War II he served as District manager of Committees on Publication for Great Britain and Ireland, and in various capacities in connection with Christian Science Wartime activities in Europe.

He will continue as associate editor during his one-year term as president. His new appointment was announced by the Christian Science Board of Directors.

Even a mild earth shock can shift a house if foundation mudsills have rotted. Mudsills and other foundation lumber can be pressure-treated with CXG chemical preservative to resist rot and termites for only a few dollars extra at time of building.

There is no limit to the amount of good a man can do if he doesn't care who gets the credit.

MUSIC SCHOOL MOVES INTO NEW SUMMER HOME

Campbell's Summer Music school, now part of Campbell High school District Recreation Program, moves into larger quarters this summer.

Dick Gordon, organizing and heading the music school program, announced that classes will be held in the new music building at the high school.

The classes will run from July 14 to August 29 and are open to students from Burbank, Moreland, Cambrian, Union and Campbell Elementary schools. This year bus transportation will be provided for students.

Gordon says the program includes band-orchestra classes, instruction on string and wind instruments and drum classes. Beginning students will be furnished with instruments. Plans also include several musical excursions and music films. A nominal fee is charged.

Brochures describing the course and enrollment blanks will go out to all third, fourth, fifth graders and all instrumental students at the elementary schools in the recreation area this week. Registration for Summer Music School closes July 1.

SUMMER SOFTBALL SHAPING UP AT CAMPBELL HIGH SCHOOL GYM

As part of the summer recreation program recently inaugurated at Campbell Union High school, local softball enthusiasts have been signing up at the high school with Junior Morgan, athletic director, who will have charge of the program.

The schedule as it now shapes up will be composed of high school, grammar school, merchant and independent teams of sand lot softball. Games will get under way about June 30 and teams will compete for prizes donated by sponsoring teams.

THIS WEEK IS TEACHER CAREER WEEK IN CALIF.

This week is Teacher Career Week in California. The goal is to persuade one out of every seven high school graduates this year to begin training for teacher careers.

It is estimated that to staff all elementary classrooms with adequately prepared teachers next year, California would need 15,000 new teachers; yet all 36 teacher training institutions in the State combined are graduating only 4,355.

To the young man or woman contemplating a teaching career, educators stress that teaching is an extremely rewarding profession. Teachers maintain a high degree of community self-respect and a high degree of economic security as well. Probably no field offers a greater sense of personal satisfaction, they say, in the knowledge that the importance of the job one is doing can't be measured in money.

For the team winning top place in the round robin contest, will go an electrical appliance which will be furnished by the other teams in the league. Simmon's Nursery of Monte Vista will donate the third prize, a prize camellia bush.

Games will be played at Campbell Grammar school softball diamond and 50c admission will be charged to adult spectators.

To date the following teams have signed up for the program: Campbell Junior Oddfellows, Lions Club of Beverly-Burbank, Monte Vista Rams, Campbell VFW, Gas Construction Gang, Campbell Independents, Carlottas and Netops Lodge from Campbell.

SCHOOL POOL OPEN AGAIN

Campbell Union High school's new heated swimming pool will be open again this weekend for students and non-students from 10 a.m. to 12 noon and from 1 to 5 p.m. No suits or towels will be furnished and a small admission charge will be asked.

The pool opening is in line with the newly inaugurated recreation program of the High School district, which begins the week after school is out, June 14 and 15. Besides recreational swimming from 1 to 8 p.m., instructional periods will be on weekdays from 9 a.m. to 1 p.m. for residents of the high school district signing up for the lessons.

Installing officers, MC Hubert E. Roberts; SC Wray Williams, JC Ralph Parker, will install incoming officers: senior deacon, Douglas Lord; junior deacon, Harold Windell; senior steward, James Humphrey; Jere Hooten Orator, Robert Helmes, Scribe, Charles Givens; treasurer, Joe Boyajian; chaplain, Barry Campbell; junior steward, B. Coats; scribe Tarence Hardwick; marshal, Chuck Stewart; Alanner Don Thompson, and preceptors, Gilbert Johnson, Chas. Johnston, Charles Nelson, Donald Nolte, William Pittman, Christopher Wharton and Bruce Neil.

where permits should be denied. Bert Simmons, 314 N. Winchester Road, a potential neighbor of Dr. Stoops, submitted a letter in the form of a petition which objected to the use of diathermy and other electrical equipment which neighbors feared would interfere with television and radio reception in the area.

Stoops countered the protest by reminding residents that a recent action by the Federal Communications Commission effective July 1, prohibits the use of equipment that affects television and radio reception. Simmons, as spokesman for the group, said neighbors had no objection to the doctor's practice if the reason for their objection was eliminated.

The traffic hazard due to an ungraded crossing at Rincon Avenue and Cypress Avenue was deferred for two weeks to allow a delegation from the Coral Manor subdivision headed by J. E. Hoover to confer with City Engineer Mark Thomas and City Attorney Joseph A. Bonacina on the advisability of constructing a two-fence traffic control suggested by Councilman J. Frederic Snyder.

A tentative plan was worked out whereby residents of the tract would donate time and materials for the construction of the traffic control.

All city officials were present at the last meeting. Mrs. Viola Krug, City Clerk, was present after a long illness. Her duties had been handled by deputy clerk Mary Jo Miles. Councilmen present besides Mayor Morton included J. B. Arends Jr., Joseph V. Gomes, Joseph M. Dahl, Dr. J. Frederic Snyder, City Treasurer Ed. A. Merrill, and City Attorney Joseph Bonacina.

CAMPBELL CAMPAIGNERS WORK FOR PASSAGE OF SCHOOL DISTRICT BOND

Campaign plan and organization of workers for passage of the Campbell Union School District \$600,000 bond issue, which comes before voters next Tuesday, are well under way in the Campbell area, reports Mrs. Jack Marsh, area chairman.

Mrs. Marsh says between 30 and 40 workers have volunteered their services to carry out a block by block campaign.

Area leaders working with Mrs. Marsh are Mrs. Mervin Willoughby, Mrs. Cecil Call, Mrs. Ralph Kalla and Mrs. Herbert Tregard.

Campaign committees are also organizing workers in the Moorpark and San Tomas areas.

The bond money, if approved by voters, will be used to build additional classrooms to new schools, and to build a school on Hazelwood site owned by the district.

Campbell's present building program, which is being financed largely by state money, is expected to take the schools off double sessions and provide room for increases of the next school year. But a recent district survey shows the pre-school population of the

district is greater than the entire present enrollment. In five years total enrollment is expected to climb from its present 3,100 to 5,800.

Nineteen additional classrooms will be needed to handle the increase in enrollment expected for the 1953-54 school year.

Passage of bonds would mean no tax increase for the 1952-53 year. Tax rate for 1953-54 would increase 10½ cents per \$1.00 assessed valuation or about \$3.25 a year for the average home owner.

New son, Arthur James, born May 10, to Mr. and Mrs. Arthur Erickson Gunn, is now home, 181 Giles Way, and doing fine, parents report.

WE URGE A VOTE OF NO ON THE PROPOSED TAX INCREASE IN THE Moreland School Dist.

1. Voters of this district have not been properly informed as to the way the additional tax money will be spent.
2. Legislation is now pending which will relieve school districts through increased State aid.
3. Residents of Quito Park have been denied a kindergarten in the new Quito School now under construction. It will be necessary to transport children a distance of at least 1½ miles to Moreland School. This will tie up one school bus. The principal of Moreland school includes the need for buses in her request for higher taxes.
4. Isn't it logical that children attend schools nearest their homes? A small matter of lopping off the southern tip of Moreland School District would make San Tomas school available to children who live within a few hundred feet.

We Should Not Act In Haste!

Vote NO — and wait while the situation is studied by the majority who pay the taxes.

TAFFETAS NOW COLORED IN THE MAKING

There's something new in taffetas—they're called "solution-dyed" "dope-dyed," or "spun-dyed" acetate taffetas. They differ from the taffetas made with conventional-dyed yarns, in that the color is within the fibre. This is done by placing colored pigments in the acetate solution, called "dope," before it is spun into a yarn. It is claimed that this method of coloring yarns makes it possible for the color to last the life of the fabric. Such a dyeing method is said to give the yarn, and hence the fabric, 6-way colorfastness; colorfastness to washing, dry-cleaning, atmospheric fumes, perspiration, cracking, or the rubbing off of color.

Investigation by the National Institute of Cleaning and Dyeing shows that while the conventional piece-dyed acetate taffetas do not present any problem in cleaning and finishing, some of the solution-dyed acetate taffetas do. It is not the method of coloring the yarns that makes this type of fabric respond unsatisfactorily in wear and cleaning. It is the method of sizing (stiffening) the yarns in the weaving operation.

S. C. COUNTY COURTS SYSTEM OUTLINED FOR LOCAL CITIZENS

By ELAINE DAVIS

In this election year of 1952, with many candidates jockeying for position in the legislative and executive branches of government, it is easy to forget that our American democratic system is founded on a three-way division of power among executive, legislative, and judicial branches. Recently, on a national level, our focus has been on the judiciary because of the dispute concerning the steel industry. Interest throughout the nation is intense as to the perhaps historic decision the Supreme Court will make.

But on a local level, many people have only hazy ideas about the workings of our municipal and county courts. Yet these same individuals will be called upon in the June 3 primary to choose ten judges to serve in the various courts in Santa Clara county.

What are these courts? What are their chief functions?

Four main types of courts exist in our county: Superior, Municipal, Justice, and "small claims" courts.

First, the Superior Court of Santa Clara county, the basic and most important court of all. For many years, this court, which is under state jurisdiction, had only three departments. Recently two new departments were created by the Santa Clara County Board of Supervisors. Governor Warren appointed Judges Byrl R. Salsman and Leonard R. Avilla to complete the roster of five judges. Term of office is five years. In the June 3 primary, one position, Department 3, will be up for election.

All types of cases involving \$3000 or more, are handled by the Superior Court, such as personal injury, divorce, property damage, trespassing, libel or slander, equity suits on contracts, probate cases, and writs of habeas corpus. Persons of foreign birth desiring to become naturalized American citizens are heard in this court. Most criminal matters are under its jurisdiction also. Individuals under 18 years of age involved in legal difficulties are heard in the Juvenile Court, which is a part of the Superior Court, and those between 18 and 21 may be tried in either court, at the discretion of the presiding judge.

Every person before the court is entitled to the choice of trial by jury or by judge. Thus, trial work involves both jury and non-jury cases. Not many persons are aware of the fact that if a judge hears a case, he has the full power to judge the facts, that is, to determine guilt. If a jury hears a case, it has the sole power to determine the facts. In this case, the judge's duty is to decide what law should be applied and what sentence inflicted. In criminal cases, the jury has nothing to do with punishment, although members can recommend leniency.

The Superior Court also acts as an "appellate court" for all "inferior" courts in the county, both for civil and criminal cases. Thus, if a case from a Municipal or Justice Court is to be appealed, it will be heard in the Superior Court.

Another important function of this court is to impanel the grand jury. Each year the five judges submit six names each from which the 19 members of the county grand jury are called. The impaneling jurist chooses the foreman from this group. The jury has inquisitorial power over all administrative functions and administrators of the county government, acting to insure uprightness of principles and conduct on the part of public officials. Also, any individual may resort to the grand jury for a hearing if his complaint is turned down by other official channels. After the jury submits its report and recommendations each year, it is dismissed.

Santa Clara county's four Municipal Courts handle matters up to \$3000. Three of these courts are in San Jose-Alviso township and one in Palo Alto-Mountain View. Three judges, Dempsey, Miller, and O'Connor, all incumbents, are candidates for re-election to the three San Jose courts. In the Palo Alto-Mountain View Municipal Court, one judge will be elected.

Under the new inferior court system, Municipal Courts acquired jurisdiction over liens under \$3000, which in the past were heard only in the Superior Court. This has given the citizen a chance to have his case reviewed much quicker than was possible on the congested calendar of the Superior Court.

When the court system was reorganized, certain Justice Courts were retained as a convenience for the public and to give them better service. Located in various parts of the country, they are presided over by a "justice of the peace," who need not be a lawyer. They handle matters from \$100 to \$500. For example, if you live in Mountain View or Morgan Hill, and your neighbor sues you for the damage your dog does to his property, you may save valuable time and trouble by having your case heard in your home area.

Judgeships for the Santa Clara, Sunnyvale, Morgan Hill, Gilroy, and Los Gatos-Saratoga-Campbell Justice Courts were up for election this week.

The fourth type of judicial body in Santa Clara county, "small claims" courts, hear matters under \$100. Both the Justice and Municipal courts may "sit" as "small claims" courts.

These four court systems comprise the judiciary of Santa Clara county, all vital in the protection of the right and privileges of our citizenry.

Scout Meeting Reveals Plans For New Events

The next district event, the chairman announced, will be the court of honor, June 5, at Campbell Union High school.

Scout members of the district plan to organize a work party to the Hi-Sierras Summer Camp, May 30, 31, and June 1, under the leadership of Albert B. Smith.

LETTERS TO THE EDITOR

Opinions expressed in letters to this department do not necessarily reflect the editorial policy of this paper.

To the Editor:

I wish, through the privilege of your public forum, to express my opposition to the increase of the Moreland School District tax rate from 90 cents to \$1.50. An election will be held on Thursday, June 12, for this purpose. My reasons for protest are as follows:

In the first place the general public have not been properly informed as to the purpose for which the added tax rate will be used. The citizens who pay taxes are entitled to know—and an uninformed taxpayer has but one alternative, to vote a resounding "NO."

A few weeks ago one of the board members was phoned by a citizen in regard to securing more information as to why the tax boost is sought. He was told that a pamphlet would be issued setting forth the reasons. This pamphlet has not appeared, although school children were given a mimeographed information bulletin to take home to their parents. Therefore, those who do not have children in school have received no information; and the bulletin was filled with ambiguous statements which to me constitutes an insult to the intelligence. Those who are registered to vote in the Moreland School District should secure a copy of the aforementioned bulletin, and digest it fully before going to the polling place (Moreland school) June 12.

The average "take-home-pay" per month for teachers was stated as \$188.88. Is that after "retirement deduction" as well as the other deductions which are common to all who receive pay checks? Is the sum of \$188.88 based on a 12-month year? Teachers do not work at their professions during the summer vacation months, and are free to take upholstery, basket weaving, etc., in order to secure their higher degrees... or to take remunerative employment. They are paid for the many holidays and "conferences" also. But so much for that.

It was stated also (in the bulletin to school parents) that AFTER the June 12 election the county board of supervisors will examine the school budget and inform the school district as to how much of the \$150 should be levied. Assuming that the supervisors possess this power (and I believe they do NOT), why aren't they asked for their august opinion BEFORE setting the election instead of waiting until after the election (and the maximum amount has been voted)? It seems to the writer that this is getting the cart before the horse.

It has come to the point where the taxpaying public have got to put their feet down and insist on strict compliance with the dictates of economy in the operation of schools as well as government. First things should come first, and I do not see why the fripperies and folderols shouldn't be omitted from the schools until such things as teachers' salaries, adequate equipment and facilities for EDUCATIONAL purposes are taken care of. Such things as the building of district empires, top heavy staffing, buzzers, public address systems to all rooms from a cushy office, coffee rooms where the overworked personnel may pull on a cigarette, costly lawn sprinkling systems (which the taxpayers cannot afford for themselves)—such things, I say, should wait until the budget permits.

Taxes, once raised, are all but impossible to reduce. Money for the purpose of raising salaries must continue to flow; otherwise it would become necessary to reduce salaries. This is all part of the general inflation spiral. Where can it end if the taxpayer continues to be a "rubber stamp" for every call for more funds? I think the average citizen is getting fed up with some public agency sticking its hands in his pocket every time he turns around. And that is just what three or four people are

SERVICE NOTES

SGT. FLOYD DAVIS OUT

Marine Sergeant Floyd W. Davis, son of Mrs. N. W. Davis of 700

Parr Avenue, was recently released from active duty with the Marine Corps after completing 19 months active service under a release program recently inaugurated.

Sgt. Davis has served with the First Marine Division in Korea for a period of 12 months as a mechanic and mortar man. He was awarded the Korean Service Ribbon and the United Nations Ribbons for his overseas duty.

JAMES SIMS AT LACKLAND

Airman James B. Sims, 17, son of Mrs. E. C. Sims, 230 N. Central Ave., Campbell, has completed his AF basic airman training course at Lackland Air Force Base, the "Gateway to the Air Force."

His basic indoctrination will prepare him for entrance into Air Force technical training and for assignment in specialized work. The course includes a scientific evaluation of his aptitude and inclination for following a particular vocation and career.

Sergeant First Class Steve Cardinale, son of Mr. and Mrs. Sam Cardinale, 390 Budd Avenue, is now serving in Japan with the 24th Infantry Division, veteran unit of 19 months in combat on the Korean peninsula.

about to do to the Moreland District taxpayers on June 12.

To me the greatest disregard for the citizenry of this district was expressed by the board in not releasing information prior to setting the June 12 election. I am sure that a copy of the whimsical bulletin of recent date would have been welcomed by your paper for publication.

In the final analysis, the taxpayer must exercise his prerogatives wherever possible. The Santa Clara county tax rate is now \$5.77, and the new budget has been set at more than 24 million dollars. What interests me is the item of 6 2/3 million dollars for SALARIES and WAGES, more than 25 percent of the total budget. So what do you think will happen with respect to the general county tax rate for the coming fiscal year?? The pattern is becoming too familiar in all agencies which rely on tax money for their operation. Budgets are not made from current funds on hand, and "receivables," but are based on what is needed to feed the insatiable appetites of our "servants."

I am surprised that more people do not take advantage of the opportunity to express themselves in your columns. If they did, this letter might be much shorter. In fact, it only serves as an introduction to a very important subject.

In my own mind I have weighed the pros and cons with regard to the Moreland District tax boost election on June 12, and I cannot do other than to vote against it. I am thinking of the day my next tax bill comes due—and the lining of my pocket is wearing thin.

Mrs. LEORA EMIG was re-elected president of the Edwin Markham Poetry Society at the most recent meeting of the group, held in the Cupertino home of Mrs. GRACE PARRISH.

Mr. and Mrs. M. P. PETERSEN were honored on the occasion of their 60th wedding anniversary last Sunday at open house held in the Erin Way home of Mr. and Mrs. VERNON LEE. Mrs. Lee is a daughter of the celebrant couple. All five of the Petersen's children, Mrs. VERNON LEE, and JOHN E. PETERSEN of Campbell, JAKE PETERSEN and Mrs. GUY McCAMMON of San Jose, and Mrs. BLAINE MARRINGTON of Watsonville were present, as well as 11 grandchildren and 14 great-grandchildren. Many friends attended the open house to congratulate the couple.

The Petersens were married May 20, 1892, in Vejle, Denmark, where Mr. Petersen was a baker for twenty-five years. The family, including all the children, came to the United States on June 8, 1911, and settled first in Schaller, Iowa. They moved to Watsonville in 1925, and in 1945, Mr. and Mrs. Petersen took residence in Campbell, at 61 Giles Way.

Mrs. ARTHUR BUSH of Elam Avenue is at home recuperating very nicely from an emergency appendectomy performed May 16. Friends and family of KERRY LEVENBERG gathered last week at the Levenberg residence for a barbecue in honor of his 14th birthday. Games of all kinds were played, but an elimination contest in badminton occupied the major portion of his guests. PETER MCCARROLL was the winner, according to Kerry, because he ate less barbecued chicken than the rest of his class.
